## Eco Hotel Solutions

## Spire NZ's Purpose is to Reduce Plastic Waste from Hotel and Travel Toiletries

### MELISSA PARKER BENTLEY

FOUNDER AND MANAGING DIRECTOR

Melissa, a Chartered Accountant and Carbon Emissions Consultant has pursued her dream of creating a business that tackles the problem of plastic waste head on.

She has combined her passions of travelling, good skincare and a love of the natural world to create an eco-friendly range of hotel & travel toiletries.

# SOAP-FREE ALL IN ONE SHAMPOO, CONDITIONER AND BODY WASH BARS

**Lightweight - Long Lasting - Spill Free - Plastic Free**

## **Multi-Tasking Bar**

As the name suggests, the Whole Body Shampoo Bar is a super multi-tasker. It can be used as a 2in1 Shampoo & Conditioner, Face and Body Wash, Make-up Remover and Shaving bar.

## **Soap-Free**

Spire NZ's Whole Body Shampoo bars are 100% soap-free.

They have been meticulously formulated using a mild and gentle surfactant, sodium cocoyl isethionate (SCI). The high foaming, creamy lather from SCI washes away dirt without stripping the skin of natural oils. It has been scientifically proven that SCI does not penetrate the skins barrier, so it doesn't irritate sensitive skin or eyes.

## **Hydrating**

Our bars contain coconut oil and glycerin to moisturise as they cleanse, leaving skin and hair feeling soft and hydrated.

## **Biodegradable**

Our bars are environmentally friendly as they are made from 100% biodegradable, ethically sourced, plant based ingredients. They are vegan and cruelty-free and use no mineral oils.

## **Other Benefits**

- Plastic-free
- Shower time, water usage and energy savings can be made when using one product
- Lower shipping and carbon emission's due to the concentrated, compact size
- Each bar weighs 25g and has a soft gender neutral cucumber and fig fragrance - however for large orders we can customize the colour, size and fragrance.

## **Made in New Zealand**

Ingredients: Sodium Cocoyl Isethionate, Hydrogenerated Vegetable Oil, Caprylic Triglycerides, Aqua, Polyglycerol-4 Laurate, Glycerin, Panthenol, Perfume, Tetrasodium Glutamate Diacetate

## **Other Products**

Handmade Soap Bars

## TESTIMONIAL

*"It is without doubt the best product for my extremely tricky scalp I have ever used. I have spent many thousands on products over the years & not one of those products has given me the results your bar does! ." Samantha, Nelson*

# INFO

## Production

Spire NZ's Whole Body Shampoo bars are produced at an established boutique factory in Auckland with a 150 year manufacturing history. Our manufacturing partners can accommodate very large orders with short lead times.

## Packaging

Our bars are packaged in paper envelopes.

## Customize

We are able to customize size, fragrance and colour of our shampoo bars and soaps for large orders

## Samples

Please contact Spire NZ for samples and more information.

## 100% Biodegradable

If one of our bars ends up in landfill - it will be gone within 3 months

**“Travellers, now more than ever are aware of their place and impact in the world, and want sustainable accommodation and experiences, and this is where Spire NZ's products can enhance your hotels eco-credibility.”**

# TESTIMONIAL

*“When we got the samples of the shampoo bars, we distributed them around so we could all try them. It's a lovely product to use. The other bars we tried were too hard.*

*We very much liked the size of the bars and presentation. We decided to run with Melissa at Spire NZ as she is a lovely person, very professional and easy to deal with.”*

*Dan from Bell Hill Apartments*
